

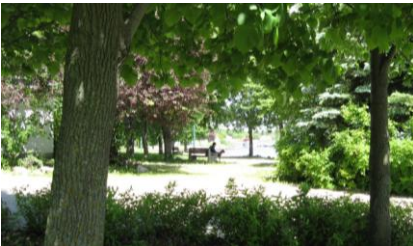

## PHOTO TIPS

Every Picture Tells a Story - make sure yours is a great one!

Photos submitted to the MB CIB office will be used to showcase your community on CIB posters, the website, in flyers and handouts and at the Awards Ceremony. Help us show your best to the rest of the world!

### *Some Helpful Hints:*

Think of the 8 criteria (floral displays, heritage, environmental effort, tidiness, turf, landscapes, community involvement, urban forestry) when taking a picture and try to capture shots depicting one or more of them or enjoying the benefits they provide.

Think of photos showing the benefits - pride in community, tourism, before and after shots and involvement of people of all ages. Remember to consider lighting conditions, shadows, etc. Set your digital camera to 3 or 4mb minimum to have a high quality resolution.

Your quality photographs are appreciated and may be utilized for Communities in Bloom promotional material.

Get creative and have fun!
